

HERMES LONDON DENTAL CLINIC

The Care, Attention And Service You Deserve

Cosmetic Dentistry | Emergency Treatment | Orthodontics
Teeth Whitening | Hygiene | Implants | Botox & Dermal Fillers

At Hermes London Dental Clinic, we focus on providing clients with the best experience during each visit.

It is our mission to bring you closer to your dream of having beautiful, healthy straight teeth and we have the solutions necessary to help you achieve it.

We have a friendly team of cosmetic dentists, dental hygienists and orthodontists who provide treatments in a clean and comfortable environment and have extensive training to provide you with the perfect smile that you have always wanted.

We offer both routine and cosmetic dentistry in the heart of Central London near both Victoria and Pimlico.

Dr Parneet Sehmi

Reasons to choose Hermes London Dental Clinic

Excellence in Dental Care

Our dentists and orthodontists have had extensive training both in England and Internationally, to enable us to provide the very latest in cosmetic dentistry procedures to the highest of standards.

Experienced Staff

All our staff are continually training further to enable us to keep up to date with the latest advances in the dental world. All our staff are very experienced and GDC registered.

Comfortable Surroundings

We have a state of the art sunlit private dentist in London and we pride ourselves by giving our clients the most pleasant dental experience.

In-depth Consultations and Discussions

We take the time to discuss all options, so that you're able to make an informed decision on your treatment.

Ethical Dental Care

We are transparent with all treatments and what to expect from them. The health of your teeth is always the most important aspect.

Convenience

We provide a 24 hour emergency service 7 days a week so that our patients need not worry about any dental problems out of hours.

Flexible Payment Options

We provide a number of options to allow payment over time, including 0% finance over 12 months on treatments over £500.

Implantology

Cosmetic Dentistry

Whilst regular dentistry solely improves the function and health of your teeth, cosmetic dentistry is designed to improve dental aesthetics to give you a confident smile that you've always wanted.

Interested in cosmetic dentistry to improve the appearance of your smile but are unsure of which procedure is best for you? We take the time to talk through your insecurities to discuss a suitable cosmetic dentistry treatment to suit you.

Our cosmetic dentistry treatments include:

- Orthodontics
- White fillings
- Porcelain veneers
- Teeth whitening
- Inlays and Onlays

Emergency Treatment

We understand that dental problems can occur at any time and don't always happen during working hours. Whether you have unexpected dental pain or problems with a wisdom tooth, we will have a suitable and affordable emergency treatment for you.

All emergency dental cases are handled immediately with our 24 hour emergency dentist, with treatment provided on the same day as the appointment by our friendly and reassuring team of dentists.

If you need urgent dental treatment, please don't wait to call us on **020 7233 7660** or on **07711 200 694**.

Orthodontics

Orthodontics is a special branch of dentistry that deals with preventing and correcting the irregularities of the jaws and teeth for a perfectly aligned smile. Orthodontic treatment caters to both functional and aesthetic aspects by properly aligning and straightening the teeth.

We use only the latest technology and add a level of personal care to every case.

Our orthodontic treatments include:

- Invisalign
- Retainers
- Lingual Braces
- Ceramic Braces
- Damon Braces
- Six Month Smiles
- Invisible Braces

Teeth Whitening

If you're beginning to feel anxious and embarrassed about your stained teeth, you may like to consider teeth whitening, which is a safe dental procedure used to lighten the colour of your teeth with a dental bleaching agent.

Teeth whitening can be delivered through two methods of home whitening or power whitening.

As an award-winning dental clinic, we have experience and a proven track record in professional teeth whitening. Our team of dental experts use the latest methods for fast and effective results.

Hygiene

Our dental hygienist provides a full-scale removal and air-polish to remove stains and make your teeth instantly cleaner, more white and providing you with a fresh breath.

Dental hygiene treatment is provided by a dental hygienist who will remove any plaque from your teeth and provide you with advice on how to keep your teeth clean and fresh, which can be useful if you're suffering with gum disease or bad breath.

An appointment isn't required and you can take advantage of our dental hygiene treatment with our walk-in service.

Implants

Losing all (or some) of your natural teeth can be uncomfortable when chewing or biting, and can leave you feeling disheartened with your overall confidence.

We use the latest technologies to streamline our dental treatments, including dental implants, which offer a clinically proven and safe solution.

Dental implants help restore function so you can eat, chew and bite without your dentures falling out or having to stick to a soft food diet for the rest of your life.

Botox & Dermal Fillers

Facial rejuvenation techniques can soften the wrinkles for a more youthful appearance. Our dentists have a thorough knowledge and understanding of the facial anatomy and can perform this delicate procedure carefully, painlessly and precisely, with results usually seen in a matter of days.

We recommend the procedure is repeated around every three months for the most effective results.

Treated areas include:

- Frown lines
- Eyebrows
- Crows' feet
- Forehead lines
- Smokers' lines

Other Specialist Treatments

Our cosmetic dentists and orthodontists have had extensive training and have completed courses both in England and Internationally, to enable us to provide the very latest in dentistry procedures.

We also offer other specialist treatments, including:

- Jaw problems
- Snoring
- Children's teeth
- Smoking cessation
- Mouth cancer screening
- Dentures (including denture stabilisation)
- Sinus lift

Our Reviews

"I have been treated by Dr Sehmi for over three years. I trust his advice and have seen a marked improvement in my teeth and gums. Dr Sehmi is professional and approachable, as are all the staff who work at the practice. I highly recommend the clinic and have referred my friends and family."

Ms Sophie Barr

"I initially went to see Dr Sehmi for a check-up and ended up with a brilliant new looking set of teeth! From my very first consultation, everything was explained so clearly and precisely. Everyone at the practice is so kind, polite and helpful. I only wish I had gone sooner."

Anonymous

"I have been a patient here for a couple of years now and have been so pleased with the service. I have recommended to my mum and she now attends the clinic, too."

Cathy Daly

"Dr Sehmi could not have been more kind, caring and attentive throughout both treatments."

Miss Holly Walker

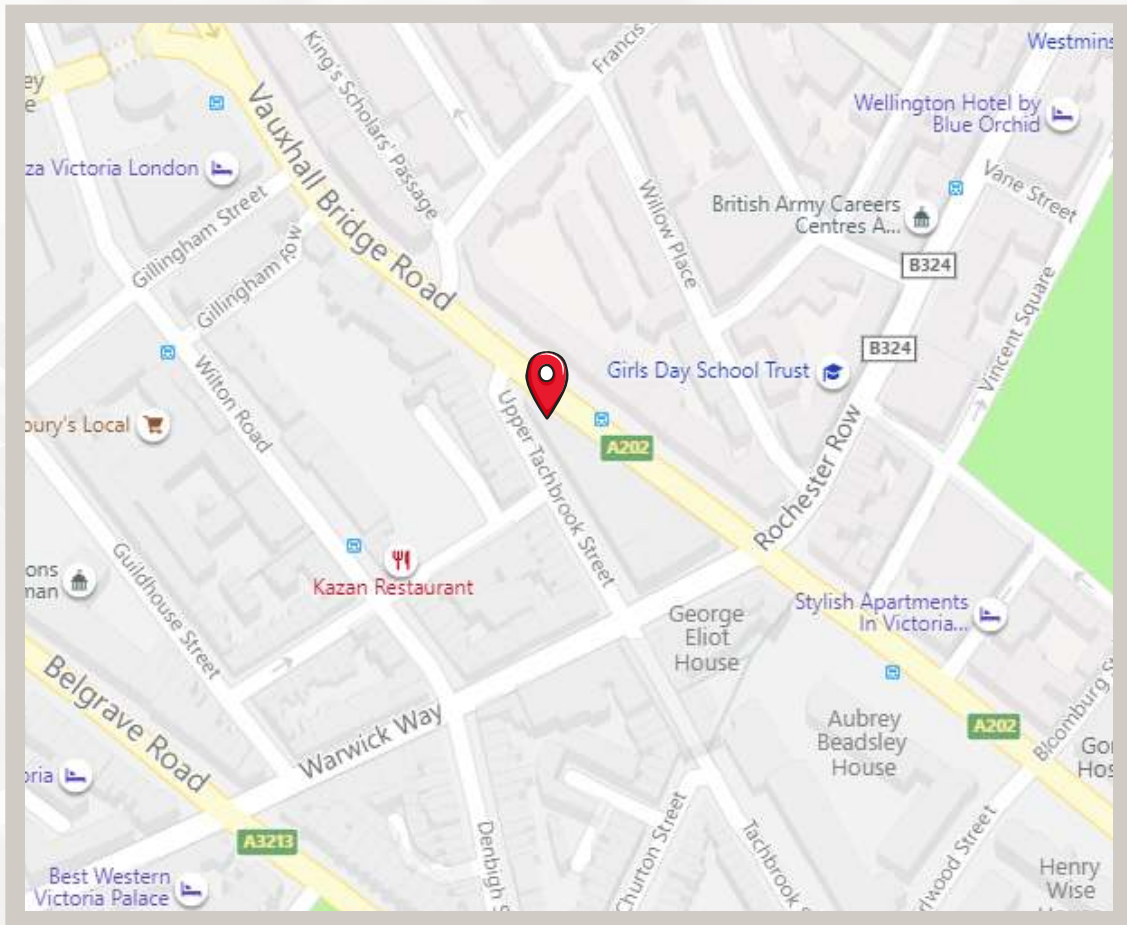

"Every visit to Hermes London Dental Clinic has been a positive experience. From the moment Dr Sehmi outlined his treatment plan for us, we were confident we would be able to smile with pride."

Mr and Mrs D. Sutton

"My wife and I have been very pleased with Hermes London Dental Clinic. The staff are all so welcoming and immediately put your mind at ease with their clear knowledge, professionalism and expertise."
